

Intelligent Computing ICIC 2009

Friday, 09 January 2009

International Conference on Intelligent Computing 16-19, 2009 September in

Ulsan, Korea

This conference is organized by The University of Ulsan, Korea, the

Institute of

Intelligent Machines and the University of Science & Technology of as well as the

Chinese

Academy of Sciences. It is technically co-sponsored by the IEEE Computational Intelligence Society and the International Society of Neural Networks. Methodologies, theories and emerging applications will be illustrated.

After having received the Best Paper Award last year, Mr. Vitoantonio Bevilacqua is this year's Program Committee Chairman and he presents two Special Sessions:

3. Special Session on Knowledge-Based Systems and Intelligent Computing In Medical Imaging;

14. Special Session on 2D vs 3D Intelligent Biometric and Face Recognition Techniques.

To visit web site: <http://ic-ic.org/2009/SpecialSession.htm> .

Once again, the committee will include a workshop and special session, that participants must propose, in the program.

Important Deadlines: March 20, 2009: Workshop/Special session proposal deadline; March 31, 2009: preliminary Acceptance notification; April 10, 2009: Full papers due to be submitted through the regular submission site (marked for appropriate workshops/special sessions), which should be written in English language with a single-column, single-space format.

For more information, please visit the conference website <http://www.ic-ic.org/2009/index.htm>
